Summary:

I am a Food Technologist with experience in developing safe, high-quality and innovative food products. I possess strong skills in problem-solving, market research, data analysis, and R&D, and I am particularly interested in food safety regulations, product development, and sustainable processing technologies. I have experience in laboratory analysis, quality evaluation, and collaborating with cross-functional teams in production and R&D.

Academic Project/ Live Project:

- **Study on the Effect of NIR Treatment on Storage Stability of Pearl Millet flour and Rice flour**
 - Storage Stability of Flour (check the shelf life of flour)
 - Evaluated changes in physicochemical characteristics and shelf life of flours and Formulation of food product with NIR-treated flour, simulating small-scale milling and fortification applications.
 - Developed understanding of flour quality assessment, process optimization, and product stability (Sensory Evaluation).
- **Formulation and quality evaluation of gluten-free water chestnut cookies incorporating pearl millet flour**
 - **Consumer Preference and Category Analysis** of Healthy Cookies Products among College Students and Staff.
- **Millet milk soda – an innovative functional beverage**
 - Comparative Category Study of Functional Beverages among Young Consumers

Experience

Bunge India Pvt Ltd

Student Intern

Tiruchirappalli, TN

January 2025

- Gained hands-on experience in **plant safety procedures**, including compliance with *Personal Protective Equipment (PPE)* usage, **Lockout-Tagout (LOTO)** systems, and general safety audits.
- Assisted in Quality Control and Quality Assurance operations for edible oils and fats, ensuring products met established food safety and purity standards.
- Developed a strong understanding of both **Physical and Chemical Refining Processes** involved in edible oil production, including degumming, bleaching, and deodorization stages.
- Learned about **Research and Development (R&D)** activities focused on improving the **functional, nutritional, and stability characteristics** of oil and fat-based products.
- Collaborated with cross-functional teams in **Quality Assurance** and **R&D** departments, demonstrating strong **teamwork and communication skills**.

ITC Limited ABD,

Student Intern

Bengaluru, Karnataka

15 Feb 26 – 16 May 26

Study on Regulatory Requirements for Natural Food Colours and Support in Curcumin Extraction Trials and Application Studies Planning

- Conducted market and regulatory research on natural food colours across the **EFSA, FDA, and ASEAN** markets.
- Studied mechanisms and applications of natural colours, including **Curcumin, Anthocyanin, Carotenoids, Lutein, and Xanthophyll**.
- Supported Curcumin extraction trials and application study planning for product development activities.
- **Analysed consumer preferences, formulations, and processing methods to support data-driven recommendations.**
- Applied **analytical and critical thinking skills for trend identification, root cause analysis, and decision-making.**
- Interpreted technical reports and research findings to **support innovation and product application studies.**
- Created presentations, reports, and data visualizations **using Excel, Power BI, Canva, and PowerPoint.**
- **Market Analysis and Consumer Acceptance of Natural Food Colors in Food Products like Beverages, Dairy Products, Confectionery, Bakery Products.**
- **Strong understanding of FMCG products, consumer preferences, and problem-solving with the ability to translate insights into actionable business recommendations**

Education

Qualification	Institute	Marks	Year
B.Tech (Food Technology)	National Institute of Food Technology, Entrepreneurship and Management - Thanjavur (NIFTEM-T)	7.9	2026(Passing Year)
XII	Saraswati Shishu Mandir H, S School Obaidllaganj, Raisen (M.P Board)	74.2%	2021
X	Bright English Medium H S School, Obaidullaganj, Raisen (M.P Board)	78.6%	2019

Certification and Awards

Certifications	FoSTaC – Advanced Manufacturing and Training ISO 22000:2018 Internal Auditor Training Lean Manufacturing and Six Sigma Foundations: Applying Design for Six Sigma Food Laws and Standards	(Offline) (Offline) (By LinkedIn) (By Swayam Platform)
Awards	Form III Certificate in Basketball (In South Zone University)	

Leadership & Activities

Sport Club, NIFTEM-T
Executive Member

Thanjavur, Tamil Nadu
Aug 2023- April 2024

National Service Scheme (NSS), NIFTEM- T
NSS Volunteer

Thanjavur, Tamil Nadu
2022 - 2024

Skills & Interests

Technical:	1. Teamwork, Data Analysis, Project Management, Microsoft Excel, Power BI, SAP, MS Office 2. Critical thinking and problem-solving, MS Office, MATLAB (basics) 3. Research and Development (R&D), Product Formulation, FSM, HACCP and CCP, GMP and GHP 4. QA and QC, Quality Management, Thermal Processing, Sensory Evaluation 5. Marketing Research and Regulatory Analysis, Problem-Solving Tool,
Language:	1) English (Professional Working Proficiency) 2) Hindi (Native) 3) Marwari and Marathi (Limited Working Proficiency)
Laboratory:	1. Hands-on experience with advanced instrumentation and chemical analysis techniques 2. Handling ability of Proximation Equipment, Basic Microbiology Techniques (TPC method, serial dilution method), Sensory Evaluation(Triangle test, Duo-trio)
Interests:	1) Adaptable to field travel and diverse work environments. 2) Interest in food safety and public health nutrition.
